

Ovid®

International Pharmaceutical Abstracts (IPA)

Rely on Ovid as the trusted solution that transforms research into results

Comprehensive database provides indexing and abstracts for pharmaceutical and medical journals published worldwide. It is essential to anyone interested in keeping abreast of today's health-related drug literature.

(IPA) covers the entire spectrum of drug therapy and pharmaceutical information so researchers, toxicologists, cosmetic companies, medical librarians and health practitioners can easily locate the answers to any drug-related problems that they encounter.

A unique feature of IPA's clinical studies abstracts is the inclusion of the study design, number of patients, dosage, dosage forms, and dosage schedule.

Subjects include:

- Biopharmaceuticals and pharmacokinetics
- Legal, political and ethical issues
- New drug delivery systems
- Pharmacist liability

Publisher	Clarivate Analytics (UK) Limited
